

## **PROGRAMS FOR GIFTED STUDENTS** *(Gifted Identification and Placement)*

The Boonville R-I School District uses a systematic process for the identification of gifted students that is composed of multiple criteria, including objective measures and a competent, professional evaluation.

### **Screening**

The district will provide screening for all students to ensure that all potentially gifted students have an opportunity for consideration. All available data, including information contained in the permanent record, will be considered during the screening process.

The district will use a variety of screening methods that reduce the chance of bias and provide an opportunity to identify the strengths of all students, including those students difficult to identify and traditionally under-represented, such as students with limited English proficiency, students from culturally diverse backgrounds and students with learning disabilities.

The district uses the following screening methods:

1. Anecdotal records
2. Demonstrations of creativity or creative problem solving
3. Recommendations from teachers and other personnel, parents/guardians and peers

The district uses the following screening methods designed to select students who are hard to identify or traditionally under-represented:

1. Nonverbal IQ tests
2. Nonverbal achievement tests
3. Assessments given in languages other than English
4. Course-specific or fine arts assessments

### **Individual Evaluation**

Based on screening results, some students will be targeted for individual evaluation. The program coordinator and district staff will determine which students will receive individual evaluation. The district will use a variety of evaluation methods to differentiate between the academically superior student whose educational needs are met by regular classroom programs and the gifted student with needs requiring additional developmental opportunities.

Students will be individually evaluated in the following areas:

FILE: IGBB-AP  
Critical

*General Mental Ability*: Including a full-scale score on an individualized intelligence test at or above the 96th percentile. The district uses the following tests of general mental ability:

1. Wechsler Intelligence Scales
2. Stanford-Binet Intelligence Tests
3. Test of Nonverbal Intelligence

*Academic Ability*: Including a norm-referenced test with a cut-off score at the 96th percentile or above on the composite score or on a majority of subtests. The district uses the following tests of academic ability:

1. Iowa Test of Basic Skills
2. Peabody Individual Achievement Test
3. Stanford Achievement Test Series
4. Terra Nova

*Creativity, Reasoning and Problem-Solving Ability*: Including results of instruments indicating outstanding ability in one (1) of the following areas related to the design of the district's gifted program:

1. Creative and productive thinking
2. Innovative or creative reasoning ability
3. Advanced perception of cause-and-effect relationships
4. Problem solving

The district uses the following creativity/problem-solving assessments:

1. Screening Assessment for Gifted Elementary Students

Students are eligible for placement in the gifted program if they meet three (3) of the four (4) criteria individually evaluated.

## **Placement**

The district offers the following placement options:

1. Education Resource Teacher (ERT) model: Pull-out program where the teacher of gifted students spends at least 80 percent of his or her time in the gifted resource room and some time as a resource teacher in the regular classroom.  
Grade Level(s): K-5

2. Special Class Teacher (SCT) model: Special gifted class is part of the student's regular schedule.  
Grade level(s): 6-8
  
5. Advanced Placement (AP) courses.  
Grade level(s): 9-12

Kindergarten students may not be placed until second semester so that first semester can be used for identification and evaluation.

### **Transfer Students**

Transfer students will be placed in the district's gifted program if all of the following are met:

1. The student was previously placed in a gifted program in a Missouri school district.
2. The program in which the student was placed is similar to that offered by the district.
3. The student meets or exceeds the district's placement criteria.
4. The student and parents/guardians agree to the placement.

Transfer students will be eligible if they otherwise qualify in subsequent years.
